THOUGHTS OF A MANGAKA

Men and their hairs... No, I'm not bold.

At least not yet. Though I have very hairy legs and my nipples are surrounded by curved hairs, there's none of them on my chest. More problematic are the amount and the length of my nasal hairs. Some say: "Cut them!", but I'm very tall and everytime I cut them, my smaller wife looks up asking: „Have you really cut them? So many hairs are still peeking out". My usual answer to this is: "Men with long nasal hairs are hard working men." But I've no idea if that's true. Cutting nasal hairs is actually no problem, but they tend to grow best on unreachable places, especially in my nose. Luckily, you see a lot of men and women growing more tolerant towards the opposite gender in their late twenties. It's possible that some people realized that "They can't preserve their high demands forever." You often hear about former classmates, who always paid attention on look & appearance and who are now saying: "I prefer burly women." and they are really dating them. "Different people have different tastes." and that's good. It doesn't matter if you're big, bold or plain you still have a chance. Even men with hairy legs can roam freely in the world history. But nothing has changed for people with long nasal hairs. The level of tolerance for those has yet declined. For example, after saying something really intelligent today, I only got brushed off.
„Not bad, but... your nasal hairs are still peeking out."

Jiy thanks go to Daryl our typesetter and designer. Yai for translating chapter 16 and Redbeetchen & Wolf32 who helped me with the translation. Though our quality is not the best I think we managed to do an overall good job on Eden and hope that you've enjoyed v13 as much as we did!

yai (translation)

Favorite manga: Shin Angyo Onshi, Higurashi no Gakuin, Blade of the Immortal, Area, Uchi, Katsudai
Well the last part of Eden had the best part, don't ya agree? XD
I'm really looking forward to volume 14 that'll be out in ~2 weeks.
I hope you all liked our scanlation of Eden and stay tuned for more!

Daryl (typesetting & clearing)

Favorite Manga: Dragon Head, Eden, Mushishi, Higurashi no Gakuin
Hi everyone, it's Daryl! Well, we did it, Eden v13 is finally complete.
I want to thank my partner-in-crime Silverado for his excellent translator skills, URGAMMANGA for the very HQ RAW scans, and Higurashi-Manga for letting us scanlate Eden. It's been what, 6 years, since Eden is definitely one of my favorite mangas!
Future releases of Eden will made available by a joint with Higurashi-Manga.
I'm already excited to work with them. So I made it short and just hope you enjoyed our release of Eden and continue reading our future releases.
If you have time and enjoy mangas, please stop by at Manga Underground or Mushishi Net.
Regards, Daryl!
